The State Board of Examiners for Speech-Language Pathology and Audiology requests that you verify the course work and clinical experience for the individual named on this form. This information is necessary to process the applicant's request for a license.

Please return the completed form to: The State Board of Examiners for Speech-Language Pathology and Audiology, 1100 West 49th St., Austin, TX 78756-3183.

Name of Student \_\_\_\_\_ Social Security # \_\_\_\_\_

Name of College/University \_\_\_\_\_

**COURSE WORK:** Board Rules require the applicant to complete course work (with a grade of "C" or above) as follows:

**Item #1: Speech-Language Pathology -**

At least 36 semester credit hours in professional course work acceptable toward a graduate degree of which at least 24 semester credit hours are acceptable toward a graduate degree earned in the area of speech-language pathology with six graduate semester credit hours in speech disorders; six graduate semester credit hours in language disorders; and other graduate semester credit hours in courses that include information on the understanding, evaluation, treatment, and prevention of communication disorders across all age spans in a variety of disorders. In addition, six semester credit hours shall be earned in the area of audiology with three semester credit hours in hearing disorders and hearing evaluation and three semester credit hours in habilitative or rehabilitative procedures with individuals who have hearing impairment.

**Item #2: Audiology -**

At least 36 semester credit hours in professional course work are acceptable toward a graduate degree of which at least 24 semester credit hours are acceptable toward a graduate degree earned in the area of audiology with six graduate semester credit hours in hearing disorders and hearing evaluation; six graduate semester credit hours in habilitative/rehabilitative procedures with individuals who have hearing impairment; and other graduate semester credit hours in courses that include information on hearing disorders, hearing evaluations, habilitative/rehabilitative procedures, and preventive methods including the study of auditory disorders and habilitative/rehabilitative procedures across the life span. In addition, six semester credit hours shall be earned in the area of speech-language pathology with three semester credit hours in speech disorders and three semester credit hours in language disorders.

F76-10787

**For both Items 1 and 2, the following shall apply:**

No more than six semester credit hours awarded graduate credit earned prior to the date the baccalaureate degree is granted are acceptable.

A maximum of six academic semester credit hours associated with clinical experience and a maximum of six academic semester credit hours associated with a thesis or dissertation may be counted toward the 36 hours but not in lieu of the 24 graduate semester hours.

**Did the student meet the requirements of:**

**Item #1      yes      no      (Speech-Language-Pathology)**

**Item #2      yes      no      (Audiology)**

\*\*\*\*\*
